5 MAY 1986

MEMORANDUM FOR: Chief, Communications Security Division, OC

FROM: Edward J. Maloney
Acting Director of Information Technology

SUBJECT: KY-71 Requirements

25X1

REFERENCE: Memo to D/OIT fm C/CSD/OC, dtd 25 Feb 86,
Same Subject, (OC-4756-86)

1. My staff conducted an indepth survey, based upon Ref request, of our existing KY-71 requirements and our available KY-71 resources. Results of the survey indicate that all but 6 of the units are committed. The programming of resources for the outyears is subject to the Gramm-Rudman-Hollings budget reduction legislation and is therefore unpredictable.

25X1

2. In view of the known OIT KY-71 requirements, available resources, and Gramm-Rudman-Hollings I will be able to provide only three each KY-71As with associated HYX-71A desk sets. However, if our requirements diminish or additional KY-71s become available, we will revisit your request.

I would like to be helpful to OC. That having been said, the attached memorandum from OC does not provide sufficient details for me to prioritize the deployment of KY-71s.

Please obtain the following information for me:

How many KY-71s does OIT have available in storage?

What requirements do we currently have to install KY-71s?

Where does OC intend to install KY-71s? (Will these installations be in acoustically secure areas?)
